

# G2G Rockwool

## G2G Rockwool 6" Cube

The G2G Rockwool 6" Cube is a non-toxic, high-density grow medium, large enough to grow out a vast array of vegetables, fruits and flowers. The G2G Rockwool 6" Cube exhibits exceptional capillarity, a vital characteristic for starting root growth in flood systems -- making it perfect for use in a G2G hydroponic ebb and flow system.

G2G Rockwool 6" Cube

Dimensions (cm)	15 x 15 x 15
Hole Size (cm)	3.8
Grooved	Yes
Blocks per Case	48

## G2G Rockwool 1.5" Propagation Plugs

The G2G Rockwool 1.5" Propagation Plugs are for starting seeds and root cuttings prior to transplanting into the G2G Rockwool 6" Cube. The propagation plugs fit perfectly into the 1.5" diameter hole included in the 6" cube. Each plug has a uniform density, firmness and fibrous structure resulting in a uniform distribution of water, nutrients and pH levels.

G2G Rockwool 1.5" Plug

Dimensions (cm)	3.8 x 3.8 x 3.8
Hole Size (cm)	1.3
Grooved	No
Plugs per Sheet	45
Plugs per Case	1800
