

G2G Drying Racks

Good 2 Grow's Drying Racks are designed to save space by providing customizable sizing based on client's needs. These drying racks feature extruded angle ledge support which sustain heavy loads. All Good 2 Grow Drying Racks are manufactured with corrosion resistant stainless steel, maintaining long-term reliability and extending product life. G2G Drying Racks have a smooth finishing ensuring easy cleaning and maintenance. Its industrial grade casters guarantee the drying racks can move freely, easily secured in place with brakes. G2G Drying Racks are perfect for curing and wet trimming solutions.
